

## Team Racing

In an effort to keep our young and more advanced sailors interested in the sport of sailing, the PGJSA is introducing a Team Racing element into our calendar this year (7/17 & 7/18). You will note that the classes for our Team Racing will be Optis and the C420. We will hold a clinic followed by a PGJSA Team Racing Championship. A series of clinics in the future is very likely, especially if it is well received.

At the Instructor Education Day, each club's Head Instructor received a booklet with CD (Contemporary Team Racing by Gavin O'Hare) that will help in teaching and developing a team to represent the club at the clinics and competition. Team Racing will hopefully gain in interest and our eventual goal will be to form a PGJSA Team Racing Team that will challenge other YRA's at Team Racing events.

We would like to be a leader with this concept and, with a good effort from all of our member clubs, we should be able to accomplish this goal in a couple of seasons.
